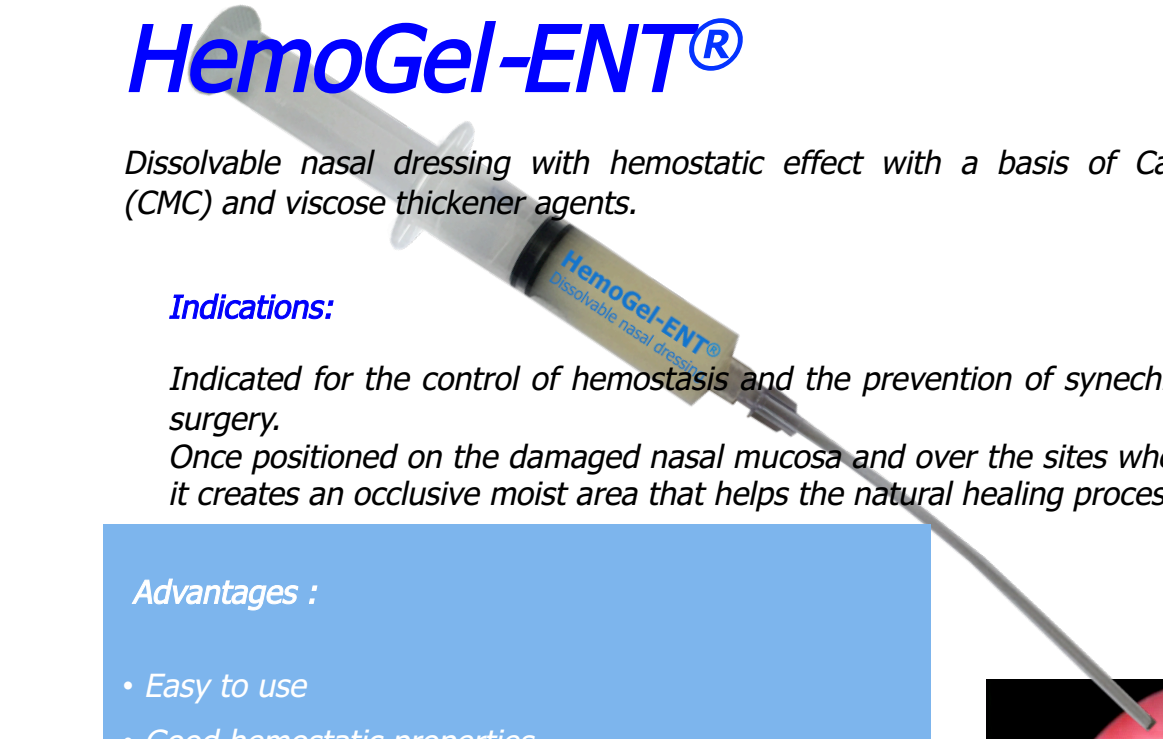
HemoGel-ENT®

DISSOLVABLE NASAL DRESSING WITH HEMOSTATIC EFFECT

COVER

HemoGel-ENT®

Dissolvable nasal dressing with hemostatic effect with a basis of Carboxymethylcellulose (CMC) and viscose thickener agents.



Indications:

Indicated for the control of hemostasis and the prevention of synechiae following endoscopic surgery.
Once positioned on the damaged nasal mucosa and over the sites where the bone is exposed, it creates an occlusive moist area that helps the natural healing process.

Advantages :

- *Easy to use*
- *Good hemostatic properties*
- *Conformable to the sinus cavity*
- *Excellent confort for the patient*
- *Anti-adhesion properties*
- *Faster healing of the nasal mucosa*
- *Dissolvable in 4-6 days*
- *Ready to use*
